1. Which Platform ?

This game works fine with either one of the following platform with MASM installed.,

- Intel 8086 processor
- Dosbox in Windows
- Other Similar Dos Emulator versions

One important condition to get it working:

Store the inp1.txt , inp2.txt, inp3.txt , inp4.txt files in the home folder of masm where you are working! (I.e within the masm folder only and not anywhere else, no sub-folder also)

2. GUI explanation :

- The Home screen displays four options, which will lead to different pages with relevant details.
- Instructions Page gives the main key Set for playing the game as well as Navigating across pages.
- High Score Page displays the Max Points scored along with the achiever's name.
- The Main Game Window is divided into Three parts, namely,
 - Play Panel, where the You have to defend the God from the Devils .
 - Score and God Power Panel, this displays the Score, Number of lives left as well as the "God Powers" in hand
 - Bottom Power Panel, this displays the Loading bar indicating the time left to get the next God Power

3. What is God Power and Why ?

- ➔ You are the Guardian, protecting the 'Recharging' God. And whenever the God gets recharged with a power, he offers you a chance to use it.
- ➔ There are four God Powers, namely
 - Freeze Power, this one freezes all the Devils (on screen) attacking you as well as the new Devils created for a short period of time.
 - Destroy Power, this destroy all the Devil attacking you.(on screen at that time)
 - 4X Power, this multiplies whatever points gained in next few seconds by 4.

- Regain Power, this ultimate Power, gives back the above three powers.(to be used exactly once more)

4. Any Levels ?

- Yes, there are 3 levels in the Game.
- Increase in Level increases the difficulty as well as offers you more points per hit.
- The level increases when the player crosses a certain score.

5. Am I Immortal, or will the Game End?

- No, God does not make you immortal, but helps you in becoming so by offering God Powers to save yourself
- The Game Ends when your Life Becomes Zero or when any Devil hits you.
